I am an XM Radio listener living in the heartland, Enid OK. While I love where I live, my experience has been greatly improved by the availability of diverse radio programming in an area that offers few choices. I pay \$9.95 for this service this service and enjoy national and local radio coverage. In order to continue to receive quality broadcasting, I respectfully request that you reject the NAB's petition 04-160. Any changes would have an immediate impact on me, a paying customer, taxpayer and proud voter.
Very Respectfully,

Richard L. Folks II
